TECHNICAL SKILLS

Programming Language	Javascript
Web Technologies	HTML, CSS
Framework	React JS, Node JS
Database	MongoDB
IDE'S & Tools	Visual Studio Code, Sublime text

PROJECT

Project Name	Library Management System, Hotel Room Booking.
Client	Don Bosco Collage Yelagiri Hills
Organization	Bosco soft Technologies private limited

Project Description:

Library Management System:

Developed a web-based Library Management System using React.js and Node.js to streamline library operations. The application features user authentication with JWT and role-based access control for admins, librarians, and members. It allows managing book inventory, borrowing and returns, and overdue items. Built RESTful APIs using Express.js and integrated MongoDB for efficient data management. This project demonstrates expertise in full-stack development, API design, and database integration.

Hotel Room Booking System :

Developed a web-based Hotel Room Booking System using React.js and Node.js to manage reservations efficiently. The application features user authentication with JWT and role-based access for admins and guests. It allows users to search, filter, and book rooms based on availability, amenities, and price. Built RESTful APIs using Express.js and integrated MongoDB for secure data storage and retrieval. This project highlights expertise in full-stack development, API integration, and delivering user-centric booking solutions.
